TenLinks.com Acquires Civil Engineering Directory

Internationally Acclaimed Web Site Will Form the Basis for an Ultimate Civil Engineering Directory

NOVATO, Calif., June 15, 2000 –TenLinks.com, the largest independent online directory for technology professionals, has acquired Civil Engineer's Mega Bookmark (http://www.tenlinks.com/civil/), an internationally acclaimed directory with over 1,000 web resources including subjects such as building codes/standards, education, tips, tools, journals, biographies, organizations and much more.

"The Civil Engineer's Mega Bookmark Site is an extremely valuable guide to information for civil engineers," said Roopinder Tara, president and CEO of TenLinks, Inc. "We will be making it even more useful by expanding it, updating it and using it as a basis for our upcoming Ultimate Civil Engineering Directory."

The Civil Engineer's Mega Bookmark represents the heroic efforts of Helena Klein, founder of the site. Klein started the project 1995 while working as a librarian for Lund University in Sweden. Klein's research led to the organization of the most useful civil engineering sites and resulted in numerous awards, including ANBAR's Cool Site, Argus Clearinghouse Seal of Approval and CEC's Golden Hardhat. It has also earned a Scout Report Selection, given to the best engineering sites. The quality of the site had not escaped the attention of TenLinks.com advisors either, having been selected as a TopTen Civil engineering site in 1999 as well as a TenLinks.com Tech Site of the Week in May 2000.

About Tenlinks.com

Founded in February of 1999, TenLinks.com is based upon the simple principle that ten links selected by an expert are infinitely more valuable than ten thousand picked by a computer. Today's busy professionals do not have time to sort out the vast amount of information available on the Internet. Tenlinks.com experts find, organize and rank web sites, providing extreme depth in numerous subjects. Its Ultimate Directories contain hundreds of TopTen lists and thousands of links, easily navigated by subject matter. In addition, TenLinks.com supplies daily news headlines, a daily email newsletter and much more. TenLinks.com's Ultimate CAD Directory has already earned several awards including the Top1% Website and Netscape Editor's Choice on the basis of content and design. TenLinks.com Announces Ultimate Civil Engineering Directory

New Directory Organizes Internet for Civil Engineers

Novato, Calif., Dec 4, 2000 - TenLinks.com, the leading online directory for technology professionals, announced the launch of its Ultimate Directory for Civil Engineers, available at www.tenlinks.com/engineering/civil.

"We hope our latest directory presents a valuable resource for civil engineers world wide," said Roopinder Tara, TenLinks.com's president and CEO. "Our editors have spent the past few months and hundreds of hours finding, organizing and ranking over 800 of best and most useful websites on this subject."

This latest directory from TenLinks.com culminates a major project that started when TenLinks.com acquired the much acclaimed Civil Engineer's Mega Bookmark site in June. It listed civil engineering resources, tips and tools, codes and standards, organizations and more.

"The Mega Bookmark site gave us a huge head start as it already contained hundreds of great sites," says Tara. "Our editors critically evaluated every existing listing, added many more and created dozens of TopTen lists. Civil engineers, like all technology professionals, are increasingly using the Internet to find information. Our goal is do the searching so they don't have to."

About TenLinks.com

Founded in February of 1999, TenLinks.com is a technical directory whose goal is to organize the Internet for engineers, technical designers, architects and GIS professionals. Unlike search engines which can return thousands of irrelevant or useless links, TenLinks.com employs subject experts to find, organize and rank the best websites. TenLinks.com lists over 10,000 websites in thousands of subjects. In addition, it distributes several industry-leading email newsletters. TenLinks' directories have earned industry awards, including Netscape Cool Site, ANBAR Cool Site and rated a Scout Report selection.
